

Top Ten Occupational Health Violations and How to Avoid Them

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA)

2 Why You Need This Seminar . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high costs of work-related injuries. Nationally, employers spent an estimated 50.8 billion on wage payments and medical care for workers hurt on the job. (*Liberty Mutual Safety Index 2005*) This is only a portion of the total costs of work-related injuries. Indirect costs such as overtime, training and lost productivity can also burden employers.
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces workers compensation costs, improves employee morale, and increases production and quality.

3 What You'll Learn . . .

This MIOSHA Seminar will bring to light the Top Ten occupational health violations that are commonly issued by MIOSHA enforcement. The course will expand on those topics and provide an in-depth review of the standards and the trouble areas that occur for employers in general industry. Topics include first aid, eye wash stations, Bloodborne pathogens, noise, respirators and confined spaces.

Agenda

*We offer a flexible
program agenda
to emphasize the
health-related
topics you
want most.*

- ▶ Top Ten Violations
- ▶ First Aid, Eyewash and Bloodborne Pathogens
- ▶ Noise
